SUMMARY

Computer Science undergraduate specializing in data analysis, with hands-on experience turning raw datasets into actionable insight through EDA, statistical modeling, and interactive dashboards across healthcare, finance, and academic performance domains. Comfortable across the full analysis workflow: data cleaning, feature engineering, visualization, and communicating findings through deployed dashboards.

EXPERIENCE

Full Stack Developer – Enterprenex Solutions Pvt Ltd **Aug 2026 – Present**
IT Department (Remote/Online) *Waluj, Chhatrapati Sambhajinagar, Maharashtra*

- Contributing to the end-to-end development of **ENX Money**, a business finance and expense management platform integrating accounting, GST invoicing, inventory, and ledger management features.
- Developing and integrating **frontend interfaces and RESTful APIs** for authentication, business profiles, customers, suppliers, khata ledger, products, inventory, sales invoices, purchase bills, payments, and financial transactions.
- Working with **Node.js, Express.js, MySQL, JWT, and Git/GitHub** to build backend services, implement database operations, handle authentication, validate requests, and maintain secure data handling.
- Integrating frontend components with backend APIs, coordinating application state and data flow, and collaborating with backend and data analytics teams to support dashboard functionality and reliable application performance.
- Implementing and debugging end-to-end application features, testing API integrations, resolving frontend-backend issues, and improving code quality, maintainability, and overall user experience.
- Following a structured **Git-based development workflow**, including feature branches, code integration, testing, documentation, and deployment preparation.

Research Intern – IIT Tirupati, SEVA Lab **Jan 2026 – Jun 2026**
Under Dr. Chalavadi Vishnu *Remote*

- Worked on an **Edge-Semantic Collaborative Network for Camouflaged Object Detection** in the SEVA (Secure and Efficient Vision for Autonomous Systems) Lab, applying computer vision and deep learning for feature learning.
- Contributed to research-oriented model development and optimization using computer vision techniques and deep learning libraries.

AI & Data Analytics Intern – Scholars' Minds, Tirupati **Feb 2026 – May 2026**

- Applied machine learning and data analytics to real-world datasets across preprocessing, exploratory analysis, model building, evaluation, and result interpretation.

DATA ANALYSIS PROJECTS

DAV Workshop – IIT Bhilai — *Python, Pandas, Power BI, NetworkX, Plotly* GitHub

- Designed and ran a 6-day Data Science & Visualization workshop covering data wrangling, web scraping, statistical visualization, time-series and network analysis, and BI dashboarding.

AI Stock Market Trend Analyzer — *Python, LSTM, Transformer, Random Forest, Streamlit* Live Demo

- Built an ensemble forecasting model (LSTM + Transformer + Random Forest + FinBERT sentiment) achieving 89.4% accuracy; visualized price and sentiment signals in an interactive Streamlit dashboard.

Student Performance Indicator — *Python, Scikit-learn, Flask* Live Demo

- Performed EDA and feature engineering on demographic and academic data to identify drivers of exam performance; compared regression models and deployed the best as a Flask web app.

Sepsis Detection Using Machine Learning — *Python, Scikit-learn, Flask* GitHub

- Analyzed ICU clinical data and engineered features to predict sepsis risk; applied SMOTE and compared Logistic Regression, Random Forest, and XGBoost using F1-score and AUC-ROC.

SKILLS

Data Analysis: Data Cleaning, EDA, Feature Engineering, Data Visualization, Statistics **Tools:** Excel, Power BI, Jupyter Notebook, VS Code
Languages: Python, SQL, R, C/C++ **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Machine Learning: Regression, Classification, Time-Series Forecasting
Frameworks & Deployment: Flask, FastAPI, Streamlit, Node.js, Express.js, React.js, REST APIs, Netlify, Render
Databases & Cloud: SQLite, MySQL, MongoDB, AWS, IBM Cloud **Core CS:** DSA, OOP, DBMS, Operating Systems

EDUCATION

Chhattisgarh Swami Vivekanand Technical University, Bhilai **2023 – 2027**
B.Tech (Honours) in CSE (Data Science) CGPA: 7.8 / 10 (till 6th Semester)
Narayana Junior College (Class XII: 89.6%), 2021 – 2023 | Narayana School (Class X: 99.5%), 2020 – 2021

CERTIFICATIONS

Complete Python for Data Science and Machine Learning – Krish Naik | AWS Training Certificate – Amazon CodeWhisperer
Data Science Workshop – Mindenious | Data Analysis using Excel – Great Learning | LeetCode TakeUForward GitHub
