SUMMARY

Computer Science undergraduate with research internship experience at IIT Tirupati and IIT Madras, specializing in Machine Learning, Deep Learning, and Computer Vision. Experienced in developing end-to-end ML solutions, deploying AI applications using Flask and React.js, and building predictive models for healthcare, agriculture, and waste classification. Seeking Machine Learning Engineer or Data Scientist opportunities.

EXPERIENCE

Full Stack Developer – Enterprenex Solutions Pvt Ltd **Aug 2026 – Present**
IT Department (Remote/Online) *Waluj, Chhatrapati Sambhajinagar, Maharashtra*

- Contributing to the end-to-end development of **ENX Money**, a business finance and expense management platform integrating accounting, GST invoicing, inventory, and ledger management features.
- Developing and integrating **frontend interfaces and RESTful APIs** for authentication, business profiles, customers, suppliers, khata ledger, products, inventory, sales invoices, purchase bills, payments, and financial transactions.
- Working with **Node.js, Express.js, MySQL, JWT, and Git/GitHub** to build backend services, implement database operations, handle authentication, validate requests, and maintain secure data handling.
- Integrating frontend components with backend APIs, coordinating application state and data flow, and collaborating with backend and data analytics teams to support dashboard functionality and reliable application performance.
- Implementing and debugging end-to-end application features, testing API integrations, resolving frontend-backend issues, and improving code quality, maintainability, and overall user experience.
- Following a structured **Git-based development workflow**, including feature branches, code integration, testing, documentation, and deployment preparation.

Research Intern – IIT Tirupati, SEVA Lab **Jan 2026 – Jun 2026**
Under Dr. Chalavadi Vishnu *Remote*

- Worked on computer vision and deep learning for autonomous systems in the SEVA (Secure and Efficient Vision for Autonomous Systems) Lab, contributing to an **Edge-Semantic Collaborative Network for Camouflaged Object Detection**.
- Applied computer vision techniques and deep learning libraries to develop and improve feature learning pipelines for research-oriented model development and optimization.

PROJECTS

EcoSort AI System — *Python, Flask, React.js, PyTorch, SQLite* Live Demo

- Developed a waste classification system using MobileNetV2 transfer learning to classify recyclable waste images into multiple categories; preprocessed image data and trained the model to improve classification performance.
- Built Flask REST APIs for image upload, inference, and classification history, with a React.js frontend offering real-time predictions and an analytics dashboard.

Crop Disease Advisory System — *Python, TensorFlow, CNN, Render* Live Demo

- Developed a CNN-based image classifier to identify crop diseases from leaf images across multiple plant disease categories, with a prediction pipeline for uploaded images.
- Deployed as an interactive web system providing real-time disease diagnosis and treatment recommendations.

Student Performance Indicator — *Python, Flask, Machine Learning* Live Demo

- Built an end-to-end ML pipeline predicting academic performance, with preprocessing, EDA, and feature engineering; trained and compared multiple models and selected the best by prediction performance.
- Deployed a Flask web application providing real-time predictions through interactive user inputs.

SKILLS

Languages: Python, SQL, R, C/C++ **Databases:** SQLite, MySQL, MongoDB
Machine Learning: Supervised & Unsupervised Learning, Classification, Regression, Feature Engineering
Deep Learning: TensorFlow, Keras, PyTorch, CNN, Transfer Learning, Reinforcement Learning
Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, OpenCV, NLTK
Frameworks & Deployment: Flask, Streamlit, Node.js, Express.js, React.js, REST APIs, Git, GitHub
Tools: Jupyter Notebook, VS Code, Power BI, Excel **Cloud:** AWS, IBM Cloud, GitHub Actions

EDUCATION

Chhattisgarh Swami Vivekanand Technical University, Bhilai **2023 – 2027**
B.Tech (Honours) in CSE (Data Science) CGPA: 7.8 / 10 (till 6th Semester)
Narayana Junior College (Class XII: 89.6%), 2021 – 2023 | Narayana School (Class X: 99.5%), 2020 – 2021

CERTIFICATIONS

Complete Python for Data Science and Machine Learning – Krish Naik | AWS Training Certificate – Amazon CodeWhisperer
Data Science Workshop – Mindenious | Data Analysis using Excel – Great Learning | LeetCode TakeUForward GitHub
